Wireless HD music in every room, even your backyard
Seamlessly stream your favorite music all over your home – indoors or outdoors – and to any Harman Kardon Omni+ wireless HD products. Listen to different music in any room of your home, even outside.

Play Spotify through your speakers, using the Spotify app as a remote
Stream your favorite songs and playlists wirelessly inside or outside your home with Spotify Connect, using the Spotify app as a remote. Spotify Connect feature requires Spotify Premium subscription.

Stream your favorite music from your phone to your speakers with Chromecast built-in
With Chromecast built-in, you can cast your favorite music, radio stations and podcasts from your mobile device to your speakers. Chromecast built-in may require subscription(s).

Up to 5 hours audio playback with a built-in rechargeable battery
You can carry the Omni 50+ anywhere you want to go around the house. With a convenient handle and a built-in battery that can support up to 5 hours playback time.

Splash proof and weather proof outdoor speaker
The Omni 50+ is a splash proof and weather proof indoor and outdoor speaker. It features an IPX5 rated splash proof design allowing you to keep the music going even in heavy rain.

24bit/192kHz HD audio streaming with digital and analog connectivity
The Harman Kardon Omni 50+ supports 24bit/192kHz HD audio streaming. Enjoy a superior audio experience, with higher audio quality than from a CD.

Simple setup and control with the free Harman Kardon Controller app
Easily set up your system and control it with the Harman Kardon Controller app. With additional support for WAC on Apple devices and a step by step in-app guide you can quickly start streaming your music.

Stream all your music over Bluetooth or 3.5mm input
Connect any device via Bluetooth or 3.5mm input to your Omni 50+ and it will automatically stream your music to any other Harman Kardon Omni+ speakers in your home wirelessly.

Dual band WiFi connection and 802.11ac network support
Supports the latest 802.11ac wireless home networking technology and dual band (both 2.4GHz and 5GHz) Wi-Fi connection, resulting in a faster, robust and more stable wireless connection.
